BOARD OF DIRECTORS

SANDAG

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2012: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for regional criminal justice information. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Because arrest statistics include information regarding whether the suspect is an adult or juvenile and include a greater variety of crime types than are reported in regional crime reports (e.g., alcohol and other drug related offenses), this information provides an added dimension for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 adult and juvenile population, as well as numbers of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented. Some points to remember when interpreting these numbers include the following:

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest may reflect only the most serious out of a number of violations included in the case.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.

2012 ARRESTS BY THE NUMBERS

- **231**: Average number of adults arrested every day in the San Diego region, down from 240 in 2011.
- **62.5**: Arrest rate per 1,000 population for youth between the ages of 18 and 24 – the highest arrest rate of any age group.
- **1,115**: The average number of adults arrested each month for driving under the influence – the most common reason an adult in San Diego County is arrested.
- **41**: The average number of youth arrested for a status offense each week in the San Diego region. Status offenses represented the most common arrest type for youth in 2012 and just under two-thirds (64%) of status offense arrests were for curfew violations.

OTHER 2012 ARREST TRENDS AND STATISTICS

- The arrest rates for both adults and juveniles were at new ten-year lows in 2012. However, for the first time, the arrest rate for adults was higher than it was for juveniles, with those between 18 and 24 having the highest rate, a distinction previously held by those between 15 and 17. This change was seen in other large California counties beginning in 2011 and again in 2012, and while the trend preceded public safety realignment (AB 109), it could reflect at least in part a greater focus on the adult justice-involved population, compared to the those youth in the juvenile justice system.

ARREST RATES

Trends

In 2012, there were 35.0 adults arrested per 1,000 population. As Figure 1 shows, this rate represented a decrease of five percent from 2011 and a new ten-year low. Across the jurisdictions, the adult arrest rate varied from 13.4 to 53.2 in 2012, with one-year decreases in 11 of the 19 jurisdictions (Table 7).

The arrest rate for juveniles has traditionally been higher than for adults but has decreased to a greater degree, overall, since 2003, and was lower than the adult rate for the first time this past year (Figure 1). In 2012, the rate of 30.8 represented a 25 percent decrease from 2011 (when the rate was 41.1). Across the jurisdictions, the juvenile arrest rate varied from 14.0 to 50.6 in 2012, with 14 of the agencies reporting one-year decreases, 3 agencies one-year increases; and for 2 the number of arrests was too small to compare (Table 10).

Figure 1
2012 ARREST RATE FOR ADULTS HIGHER THAN FOR JUVENILES FOR FIRST TIME IN PAST TEN YEARS

SOURCES: California Department of Justice; SANDAG.

Felonies and Misdemeanors

When examining arrest rates for adults by the severity of the highest charge, the rates increased by two percent for felonies and decreased by 8 percent for misdemeanors (Tables 8 and 9). For juveniles, on the other hand, rates for both felonies and misdemeanors decreased (26% and 25%, respectively) (Tables 11 and 12).

Arrestee Age and Race

As Figure 2 shows, the arrest rate by age group peaked in 2012 for 18 to 24 year olds (62.5), compared to previous years when the highest arrest rate was for youth between 15 and 17 (who had an arrest rate of 59.1 in 2012). Among adults, those 40 years of age and older had the lowest arrest rate in 2012 (21.3), consistent with prior years. Over the past year, the arrest rate decreased for all of the age groups (with decreases ranging from -2% for those 25 to 29 to -27% for those 15 to 17), with the exception of those between the ages of 30 and 39 (1% increase) (Table 2).

Arrest rates also varied by ethnic group for both adults and juveniles, with individuals of "other" ethnicities having the lowest rate (15.6), while Blacks had the highest rate (117.0). Over the past year, the arrest rate also dropped for each of the ethnic groups, with decreases ranging from 3 percent to 11 percent (Table 3).

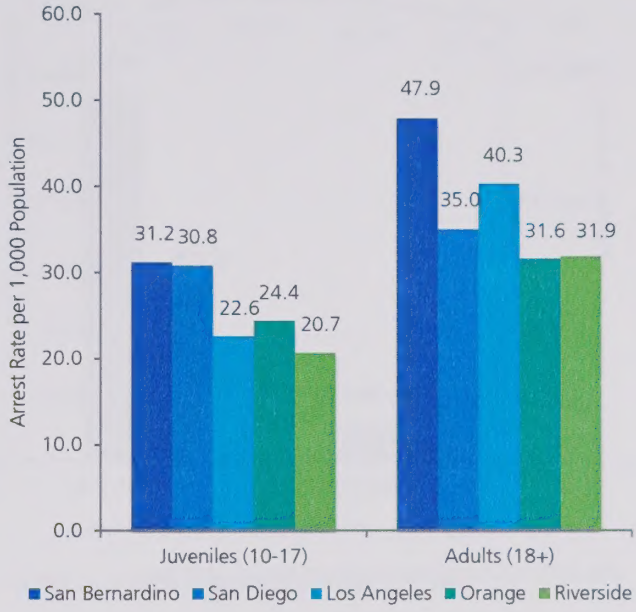
Figure 2
ADULT ARREST RATES DECREASE WITH AGE AFTER YOUNG ADULTHOOD

SOURCES: California Department of Justice; SANDAG.

SAN DIEGO COMPARED TO OTHER CALIFORNIA COUNTIES

In 2012, San Diego County had an adult arrest rate (35.0) that was lower than the State's (39.5). However, the region's juvenile arrest rate of 30.8 was higher than the State's (28.0) (Table 6). In addition, as Figure 3 shows, San Diego County had the third highest adult arrest rate (following San Bernardino and Los Angeles) and the second highest juvenile arrest rate (following only San Bernardino). In 2012, the adult arrest rate was also higher than the juvenile arrest rate for the State overall, as well as the other four largest counties, unlike five years ago when the juvenile arrest rate was higher in each of these jurisdictions and overall (Table 6).

Figure 3
SAN DIEGO COUNTY HAD THE THIRD HIGHEST ADULT AND SECOND HIGHEST JUVENILE ARREST RATES COMPARED TO OTHER LARGE CALIFORNIA COUNTIES



SOURCES: California Department of Justice; SANDAG.

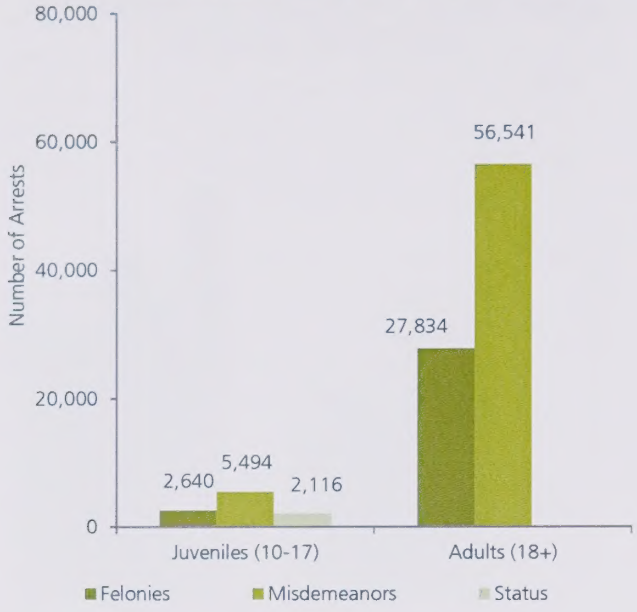
NUMBER OF ADULT AND JUVENILE ARRESTS

Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2012, there were 84,375 adult arrests and 10,250 juvenile arrests, with the majority of these at the misdemeanor level (Figure 4 and Tables 14 and 27). In other words, on average, there were around 231 adult and 28 juvenile arrests every day in 2012 in the San Diego region by local law enforcement agencies (not shown).

How Many Arrests Were Made Per Day, on Average, in 2012?

For Which Crime?	Of Adults...	Of Juveniles...
Violent	37	5
Property	28	6
Alcohol/Drug	104	4
Weapons	4	1
Other	58	6
Status	N/A	7

Figure 4
MOST ARRESTS IN 2012 INVOLVED ADULTS FOR MISDEMEANOR OFFENSES



SOURCES: California Department of Justice; SANDAG.

As Figure 5 shows, while 11 percent of all individuals arrested in 2012 were juveniles, there was variation by crime type, with juveniles representing a greater proportion of arrests for weapons (19%) and property (17%) offenses, and were less likely to be arrested for alcohol- and other drug-related offenses (4%).

ARRESTS BY OFFENSE TYPE

What types of crimes are adults and juveniles arrested for? As Figure 6 shows, slightly under half (45%) of adult arrests were for alcohol- or other drug-related violations. In comparison, the distribution across crime type varied more for juveniles, with the most common being other offenses (24%) and status offenses (21%).

There was also variation across the arrest categories in terms of what percent represented felony- versus misdemeanor-level offenses. As Figure 7 shows, while four-fifths or more of juvenile and adult arrests for weapons offenses were at the felony level (90% and 80%, respectively), a much smaller percent were felonies in the alcohol/drug (13% and 22%) and "other" offense categories (18% and 22%).

Figure 5

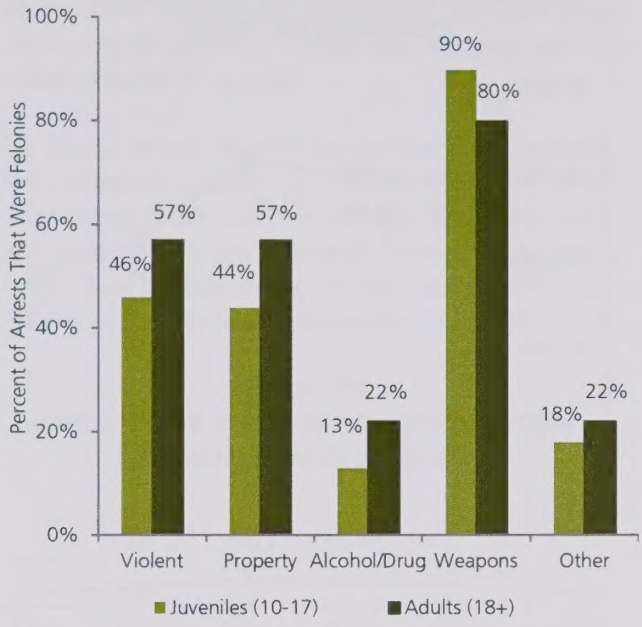
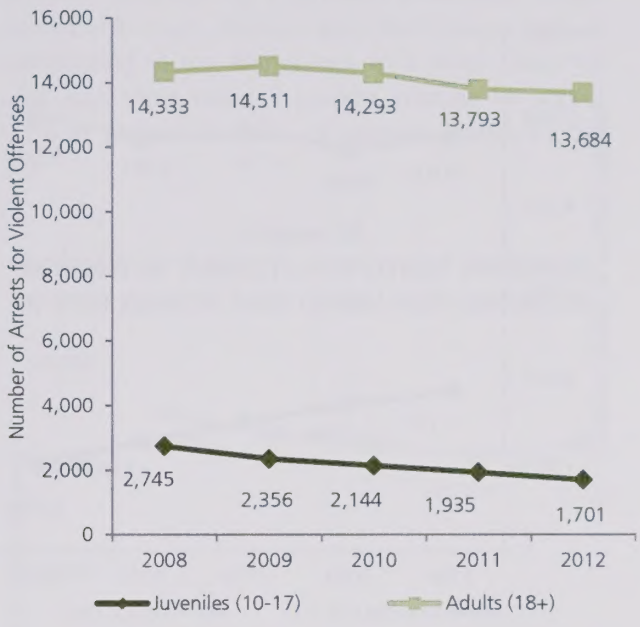
Figure 7
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE



SOURCES: California Department of Justice; SANDAG.

Figure 8
ARRESTS FOR VIOLENT OFFENSES DOWN FOR ADULTS AND JUVENILES



SOURCES: California Department of Justice; SANDAG.

Violent Offenses

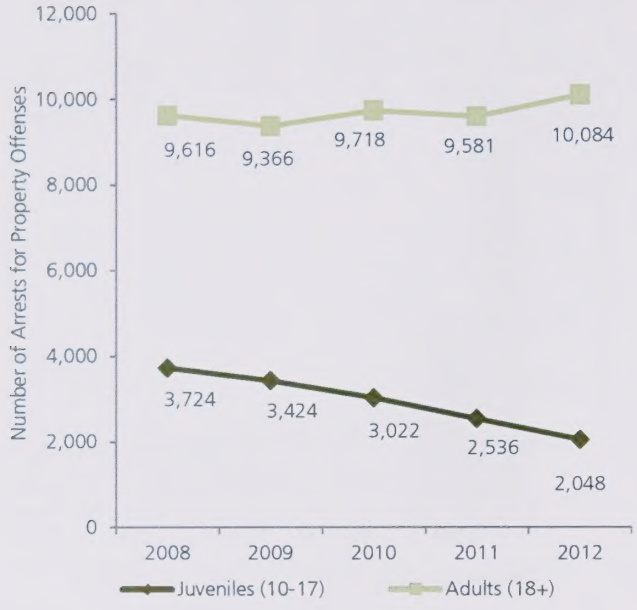
The violent offense arrest category includes four felony-level offenses (homicide, rape, robbery, and aggravated assault) and two misdemeanor-level offenses (manslaughter and assault/battery). There were 13,684 adult and 1,701 juvenile arrests for violent offenses in 2012 (Figure 8). Arrests for a violent offense declined for both adults and juveniles over the past year, but to a lesser degree for adults (-1%) (Table 21) than juveniles (-12%) (Table 34).

For adults, there were actually one-year increases in the number of arrests for three of the four felony-level violent offenses (5% for rape, 20% for robbery, and 28% for homicide), except aggravated assault, which deceased less than one percent. Misdemeanor arrests for assault and battery were down five percent (Table 22). For juveniles, there were one-year decreases in the number of arrests for robbery and aggravated assault at the felony-level. However, misdemeanor assault and battery increased by less than one percent (Table 35).

Property Offenses

Property offenses include felony-level burglary, larceny, and motor vehicle theft, and misdemeanor-level petty theft and burglary. In 2012, there were 10,084 adults arrested for a property offense, which represented a five percent increase from 2011 (following a small decrease from 2010 to 2011) (Figure 9 and Table 21). For juveniles, the number of arrests for a property crime decreased for the fifth consecutive year, with a decrease of 19 percent from 2011 to 2012 (Table 34).

Figure 9
MORE ADULT AND FEWER JUVENILE ARRESTS FOR PROPERTY OFFENSES IN 2012



SOURCES: California Department of Justice; SANDAG.

Across the property categories, there were fewer adult arrests for felony-level burglary (-1%) and larceny theft (-14%) in 2012. However, there were more arrests for misdemeanor level petty theft/burglary (12%) and motor vehicle theft (66%) (Table 23). For juveniles, there were one-year decreases in three of the four categories (ranging from -15% to -26%), with the exception of motor vehicle theft, which increased four percent (Table 36).

Alcohol- and Other Drug-Related Offenses

In 2012, there were 38,104 adult and 1,606 juvenile arrests for alcohol- and other drug-related offenses (Figure 10). For both adults and juveniles, these decreases were the second consecutive, with a 10 percent drop for adults and a 24 percent decline for juveniles (Tables 21 and 34).

Figure 10
ADULT AND JUVENILE ARRESTS FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES DECREASED FOR SECOND CONSECUTIVE YEAR

SOURCES: California Department of Justice; SANDAG.

Within the alcohol- and drug-related offense category are five felony and five misdemeanor categories. For adults, there were decreases in eight of these ten categories, with the greatest one-year declines for misdemeanor liquor law offenses (-35%) and for felony "other drug offenses" (-29%) which includes possession of drug paraphernalia and use of illegal prescription drugs (Table 24). For juveniles, there were decreases in seven of the eight alcohol- and drug-related charges, with the largest decrease for felony-level dangerous drugs (-51%) (which includes methamphetamine, depressants, and hallucinogens), misdemeanor-level driving under the influence (-32%), and liquor laws (-30%) (Table 37).

Weapons Offenses

In 2012, there were 1,349 adult arrests and 326 juvenile arrests for weapons violations (Figure 11). For adults, 2012 represented a 6 percent decrease from 2011, and for juveniles, the one-year decrease was 25 percent (Tables 21 and 34).

For adults, arrests for both felony- and misdemeanor-level weapons offenses were down (-5% and -9%, respectively) (Table 25). For juveniles, there also were decreases in both levels, though these changes were larger than the decreases for the adults (-24% for felonies and -37% for misdemeanors) (Table 38).

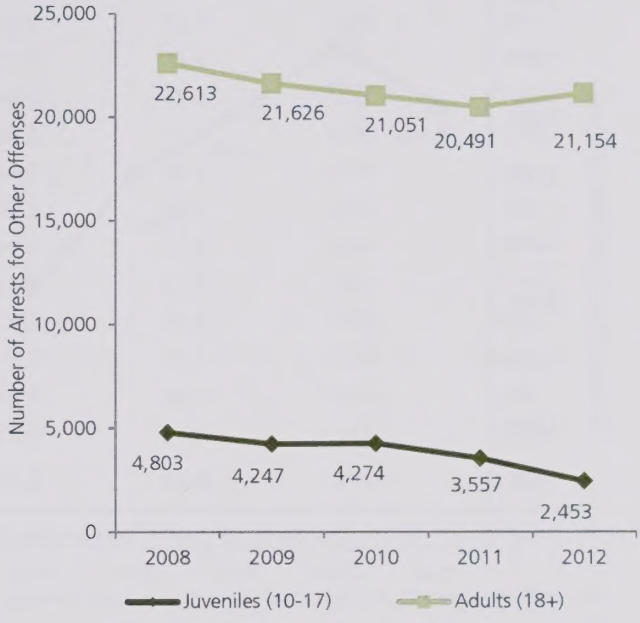
Figure 11
ARRESTS FOR WEAPONS OFFENSES DOWN FOR ADULTS AND JUVENILES

SOURCES: California Department of Justice; SANDAG.

Other Offenses

There were 21,154 adult arrests and 2,453 juvenile arrests for "other" offenses in 2012 (Figure 12). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, "other" offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges such as contributing to the delinquency of a minor. Over the past year, there was a 3 percent increase for adults, but a 31 percent decrease for juveniles (Tables 21 and 34).

Figure 12
NUMBER OF ARRESTS FOR OTHER OFFENSES UP FOR ADULTS AND DOWN FOR JUVENILES



SOURCES: California Department of Justice; SANDAG.

For adults, there were one-year decreases in 10 of the 14 felony- and misdemeanor-level "other" crime categories, ranging from -1 percent (disturbing the peace) to -28 percent (forgery). The increases, which ranged from 3 percent to 36 percent, included sex-related, arson, other felonies (e.g., kidnapping, escape), and failure to appear (Table 26). For juveniles, seven of the eight categories with more than 30 arrests declined over the past year, with the exception of city/county ordinance violations (e.g., loitering, littering) which increased 55 percent (Table 39).

Status Offenses

There were 2,116 status offense arrests in 2012, the third consecutive decrease (Figure 13). This overall decline was driven by fewer arrests for running away (down 45% from 2011), curfew violations (down 36%), and truancy (down 22%); the number of arrests for other status offenses increased 3 percent (Table 40).

Figure 13
NUMBER OF STATUS OFFENSE ARRESTS DECREASED IN 2012

SOURCES: California Department of Justice; SANDAG.

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2012 by local law enforcement agencies of both adults and juveniles. The arrest rates for adults and juveniles were both down in 2012 to new ten-year lows. For the first time, the adult arrest rate was higher than the juvenile arrest rate, with individuals between the ages of 18 and 24 most likely to be arrested based on their proportion to the population. About one in every two adult arrests are for an alcohol- or drug-related offense, while juveniles show greater variation in the offense type leading to their justice system contact. Some notable changes over the past year in arrest rates included drops in almost every category, with the exception of arrests of adults for motor vehicle theft, homicide and robbery, which all increased (66%, 28%, and 20%, respectively).
